

## Advanced/Defensive Driving course

Open to all drivers of passenger vehicles including four-wheel drives and light commercial vehicles.

The mix of practical and theoretical components of this advanced driver training course deliver actual on-road safety skills that underpin proactive driving.

This course includes:

- vehicle safety - checklist, driving position, tyres and pressure
- Practical Activities - understanding the relationship between reaction time, speed and stopping distances
- Slow speed manoeuvring and emergency breaking
- Vehicle dynamics - understanding what causes skids and vehicle instability, ANCAP 5 and Modern Technology
- Hazard Detection - the technique and skill of reading ahead and identifying hazards
- Apply low risk driving strategies and safe driving behaviours

Please contact **ADTC on 1300 866 156** or email at [admin@advanceddrivertraining.com.au](mailto:admin@advanceddrivertraining.com.au) to register your interest or if you have any questions. Thank you
